## EVENTS IN BRIEF AT WASHINGTON

BY C. S. ALBERT.

(Special Bulletin Correspondence)  
WASHINGTON, D. C., June 29.—The Panama Railroad Co. has discontinued supplying water to vessels at Balboa, Colon, and Cristobal except in quantities that may be needed to reach the next port, and has notified the steamship companies that it may become necessary to stop supplying any water at all. The sale of coal, which was discontinued on account of the strike of bituminous workers, has been resumed.

The recently passed act of Congress providing that midshipmen shall be commissioned as ensigns immediately on graduation, thereby abolishing the two-year cruise, has necessitated a revision of the Naval Academy curriculum. The changes probably will go into effect with the coming academic year next October. The general aim will be to make the instruction more thorough in the elements indispensable to the training of all naval officers, making provision for further study in the more advanced and special subjects by post-graduate courses for those who demonstrate aptitude for them.

Much interest is felt in another change in the midshipman's course in this year's summer practice cruise. All the third class, about 219, who will go to sea for the first time in their naval career, will make their cruise in the battleship Massachusetts, which is about the same as usual; but the first and second classes will be distributed among the battleships of the Atlantic fleet, about ten of each class to a battleship.

The first classmen will do mainly deck duty, learning to be junior officers of the watch and of gun divisions, boat officers, signal officers, mates of lower decks, etc. The second class will be instructed mainly in the engine- and fire-rooms and electrical department. Both classes will study radio-telegraphy and work navigation. As far as practicable, the work done by the midshipmen through the summer will be the same on all the battleships, following a scheme of instruction prepared at the Naval Academy and approved by the commander-in-chief of the Atlantic fleet.

The original plan contemplated the

midshipmen embarking on the battleships at Annapolis immediately after graduation day, but on account of the departure of some of the battleships for southern waters midshipmen will be sent to them by the mine-layer cruiser San Francisco.

The memorial monument to the late Rear Admiral Joseph B. Coghlan, U. S. N., a past commander of the Department of New York of the United States War Veterans, was dedicated at 2 o'clock on the afternoon of June 9 at the Arlington National Cemetery. President Taft delivered an address.

Official Washington, the Army and Navy, as well as many patriotic societies, including the United States War Veterans of the District of Columbia, attended. The erection of the monument was brought through the efforts of the New York Department of the U. S. W. V. The members of the New York Department attended the exercises in a body, coming from New York on special trains on June 8 for that purpose.

The services were conducted by the Rev. Father W. H. I. Reaney, U. S. N., who delivered the eulogium. Admiral Dewey unveiled the memorial, following a tribute to the late Admiral. Among the prominent naval officers who were present was George von L. Meyer, the Secretary of the Navy.

Delegations from the G. A. R. and the U. S. W. V. attended from all sections of the country. The New York delegation was headed by Department Commander Bernhardt Wall of New York City, and staff, together with the commander-in-chief, Maurice Simmons.

That not only Japan but Russia will finally agree to participation with the other four Powers in the \$500,000,000 loan to China is the substance of dispatches reaching the State Department.

This result is expected to make the loan an absolute certainty. State Department officials are now confident that the negotiations between the bankers and the Chinese government will prove successful. This belief is entertained despite pessimistic reports emanating from the bankers' conference at London, where it was said, Russia had refused to co-operate further with the United States, Germany, Great Britain, and France in the matter of the proposed loan. Reports published today to the effect that Japan was about to break with Russia on the subject of the financing of China are now confirmed by the information reaching the State Department. Though Japan's position is acknowledged to be nearer one of full cooperation with the other four Powers, it is believed that Russia will ultimately take similar action.

To prevent explosions in the magazines or turrets of the United States vessels of war the Secretary of the Navy today issued a special bulletin

containing a number of safety orders. Among the new rules are the following: "Live ammunition shall not under any circumstances be fitted in a gun used for drill purposes. "Never unlock or open the breech of a gun when a live primer is in the lock.

"At the command of 'Cease firing' the primer shall be withdrawn from the locks of guns. If a crew leave a gun at any time the gun will be left in the condition of 'cease firing.' "Force beyond the use of the hand shall not be used in loading cartridge cases into guns.

"Whenever the guns of a vessel are being fired the fire hose shall be led out as at fire quarters and the fire pumps shall be kept running."

With the expected sanction of Congress a bronze tablet in memory of Major Archibald Butt and Frank D. Millet, vice chairman of the National Commission of Fine Arts, victims of the Titanic disaster, will be erected in a small grove of trees on the White Lot south of the President's grounds. President Taft, members of his Cabinet and several members of the diplomatic corps are among the contributors to the memorial fund, the management of which is in the hands of C. D. Hillis, secretary to the President, and Col. Spencer Cosby, the engineer officer in charge of public buildings and grounds.

# CASTORIA

for Infants and Children.

What is Castoria?

**CASTORIA** is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance (Narcotics stupefy). Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The mother's Friend.

The signature of *Dr. H. H. H. H.* is on every wrapper of genuine Castoria.

"My patients invariably praise the action of your Castoria." W. W. TUNNEY, M. D., Buffalo, N. Y.

"I use your Castoria and advise its use in all families where there are children." J. W. DUNDALE, M. D., Chicago, Ill.

"During my medical practice I know of several cases where your Castoria was prescribed and used with good results." K. MORGAN, M. D., St. Louis, Mo.

"Your Castoria is the best remedy in the world for children and the only one I use and recom- mend." AARON V. SWETLAND, M. D., Omaha, Neb.

"Your Castoria is certainly the greatest remedy for children I know of. I know no other prop- rietary preparation which is its equal." B. S. SCHWARTZ, M. D., Kansas City, Mo.

"I have used your Castoria as a purgative in the case of children for years past with most happy effect, and fully endorse it as a safe remedy." H. D. BENNER, M. D., Philadelphia, Pa.
